

ENVIRONMENTAL POLICY

Acquisition Systems Ltd also trading as Pharmagraph, is fully committed to the principles of sustainability.

The Company acknowledges a responsibility for, and a commitment to, prevention of pollution and the protection of the environment and will:

- Continually improve the Environmental Management System by setting objectives and targets to enhance sustainability.*
- Implement waste management and product lifecycle strategies to reduce overall waste production and increase circularity.*
- Where possible, work with ISO 14001 accredited suppliers.*
- Reduce energy usage and emissions from business travel.*
- Work alongside the community to reduce local environmental impacts.*

The Environmental Objectives are stated in the 'Environmental Objectives' document and are regularly reviewed. The Directors, Management and Staff are responsible for Environmental Management through the Environmental Management System, seeking improvement by constant review. The Company is committed to environmental performance improvement through procedures which will be operated to meet or exceed the requirements of relevant environmental legislation, compliance obligations and ISO 14001:2015.
